## INSTRUCTIONS

1. Trace all the shapes onto colourful pieces of paper/card.  
- BE CREATIVE, use different colours for different parts or even paper with different textures.
2. Cut out the shapes (get Mum or Dad to help with this one if you need it).
3. Stick all the pieces together.  
Make sure the wings go behind the body and the beak goes under the eyes.
5. Draw some feet and the pupils in the eyes.  
- HINT, use 'boggle' eyes to give the owl moving eyes or draw the eyes in different ways to give different expressions.
